SUMMARY

Aspiring Software Developer with a solid foundation in programming, database management, and web technologies. Recent MCA Computer Science graduate eager to leverage problem-solving skills and contribute to software development projects. Committed to continuous learning and growth in the tech industry.

EDUCATION

MCA Aligarh Muslim University	2024-2026
---	-----------

BCA Global Institute of Information Technology, Greater Noida	2020-2023
---	-----------

SKILLS

ProgrammingLanguages: C, C++, Java, Python

CoreConcepts: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA)

Frameworks: Java Collection Framework

WebTechnologies: HTML, CSS, JavaScript

Databases: DBMS, MySQL

DevelopmentTools: Eclipse, SQL Plus, Visual Studio Code

PROJECTS

Online Gadget Repair Web Application

Technologies: Java, HTML, CSS, MySQL

- Designed and developed a web application to streamline gadget repair requests and service management.
- Implemented features including user registration, repair request submission, real-time status tracking, and admin dashboards for managing service orders.

Banking Information System

- Utilized **Core Java** and **Swing** for project development and file persistence.
- Developed a prototype **banking application** that included **user registration, login/password authentication, account management, deposit/withdrawal, fund transfers, and account statements**.
- Created a user-friendly **Swing-based UI** and established **file-based persistence** for transaction history and account data.

Human Resource Management System

- Developed a console-based HR management application using **Core Java** and **Collection Framework** (ArrayList, HashMap, etc.).
- Implemented **login and password authentication** for secure access.
- Designed modules for **Employee Management** including adding, updating, deleting, searching, and viewing employees.
- Integrated **Attendance Tracking** to mark and view daily attendance records.
- Built a **Leave Management** system to add, view, and **approve/reject leave requests**.
- Applied **object-oriented principles** and collection-based data handling for efficient data management.

ACHIEVEMENTS

- Secured 3rd Position at a Hackathon organized by IIMT College of Management, Greater Noida - Dec 2022.

CERTIFICATIONS

Core Java Programming

Data Structures and Algorithms using Java
